

SYNTHETIC / DEMO — 合成データによる見本です。実在の顧客ではありません。 This is a sample built from synthetic data; it is not a customer engagement.

Custom Solution Proposal — SAMPLE (synthetic data)

Solution Design & Development Workstream

Report ・ レポート	Custom Solution Proposal — SAMPLE (synthetic data)
Product ・ 製品	ソリューション設計 ・ 開発ワークストリーム / Solution Design & Development Workstream
Prepared for ・ 宛先	Sample organization (SYNTHETIC SAMPLE)
Version ・ 版	v1 ・ compiled 2026-09-01 ・ released 2026-09-01
Reference ・ 参照	MM-WD-SAMPLE0000000000 ・ CUSTOM_SOLUTION_PROPOSAL ・ mm-ddv1-deliverable-compiler/1.0.0
Review ・ 確認	compiled not reviewed ・ state released
Evidence basis ・ 根拠	4 passages ・ 4 sources ・ stale ・ latest 2026-05-02 ・ contradictions none
Classification ・ 区分	customer private tenant ・ SYNTHETIC
Case	サンプル市：路線減便後の高齢者の移動アクセス（合成データ） (founder review, v1)

Decision this document serves ・ この文書が支える意思決定
記録されたギャップに対するカスタム構成の提案を受けるか（合成データ）

この成果物が扱う判断 The decision this addresses

何を決めようとしているか ・ What decision is being made?

- 事実 ・ fact 記録されたギャップに対するカスタム構成の提案を受けるか（合成データ） (the requester's own words)
- 事実 ・ fact Geography stated by the requester: Sample City (synthetic) (customer-provided)
- 事実 ・ fact User group stated by the requester: 75歳以上の住民 (customer-provided)
- 事実 ・ fact Intended use stated by the requester: 議会向け予算説明 (customer-provided)

Case とギャップ Case and gap

どの Case ・ ギャップに答えるか ・ What Case and gap does this answer?

- 事実 ・ fact Gap SAMPLE-GAP-01 — REQUIREMENT_UNMET (OPEN, 2 unmet requirements) (concepts attached to a gap are PROPOSALS until validated)

現時点で分かっていること What is known

根拠のある事実是何か・What is supported by evidence?

1. **事実・fact** service change: "2026年4月に市内2路線が減便された（合成データ）" (1 passage・OFFICIAL)
evidence SAMPLE-E01・https://example.invalid/sample/service_change・observed 2026-05-01
 2. **事実・fact** population: "75歳以上の住民は約1,200人（合成データ）" (1 passage・OFFICIAL)
evidence SAMPLE-E02・https://example.invalid/sample/population・observed 2026-05-02
 3. **事実・fact** satisfaction: "60歳以上の約4割が便数に不満と回答（合成データ）" (1 passage・OFFICIAL)
evidence SAMPLE-E03・https://example.invalid/sample/satisfaction・observed 2026-04-20
 4. **事実・fact** budget: "地域公共交通関連予算は前年度比横ばい（合成データ）" (1 passage・OFFICIAL)
evidence SAMPLE-E04・https://example.invalid/sample/budget・observed 2026-03-30
-

構造化された要求事項 Structured requirements

何が要求されるか・What is required?

1. **事実・fact** Case question: 来年度にデマンド交通の実証を行うか（合成データ） (FACT・source: pe_cases.SAMPLE-CASE-01.decision_question)
 2. **事実・fact** 運行1日あたり上限コスト <= 48000 JPY (CONSTRAINT・source: pe_cases.SAMPLE-CASE-01.hard_constraints)
 3. **事実・fact** 車椅子対応 = required (CONSTRAINT・source: pe_cases.SAMPLE-CASE-01.hard_constraints)
 4. **事実・fact** 折りたたみ時に軽自動車へ積載可能であること（合成データ） (OBSERVED_REQUIREMENT・source: mm_solution_gaps.SAMPLE-GAP-01.unmet_requirements)
evidence SAMPLE-E01
 5. **推論・inference** 冬季の屋外保管に耐える防錆仕様が必要とみられる（合成データ） (INFERRED_REQUIREMENT・source: mm_solution_gaps.SAMPLE-GAP-01.unmet_requirements)
 6. **不明・unknown** 保守拠点を県内に確保できるかは未確認（合成データ） (OPEN_QUESTION・source: mm_solution_gaps.SAMPLE-GAP-01)
 7. **不明・unknown** no counterpart has agreed to anything (explicitly not asserted)
 8. **不明・unknown** feasibility is not asserted beyond the evidence shown (explicitly not asserted)
-

制約 Constraints

どの制約が効くか・Which constraints matter?

1. **事実・fact** 運行1日あたり上限コスト <= 48000 JPY (recorded on the Case)
 2. **事実・fact** 車椅子対応 = required (recorded on the Case)
-

提案する構成 Proposed configuration

何を提案するか・What configuration is proposed?

1. **推奨・recommendation** 既存製品の座面変更と操作系のローカライズを提案する（合成データ・レビュー担当者の記載例） (authored by the reviewer (sample reviewer))

分かっていないこと Unknowns

何が不完全か・What evidence is incomplete?

1. 不明・unknown Missing evidence class: FUNDING_PATHWAY (named by the qualification engine)
 2. 不明・unknown Missing evidence class: OPERATOR_CAPACITY (named by the qualification engine)
 3. 推奨・recommendation Bounded research task FUNDING_PATHWAY: sample city DRT subsidy programme (OPEN) (public-source only; nobody is contacted)
-

検証計画と実装境界 Validation plan and implementation boundary

どう検証し、どこまでが実装範囲か・How is it validated, and where does implementation stop?

1. 推奨・recommendation 実機1台での耐候検証を最初の検証単位とする（合成データ・レビュー担当者の記載例）
(authored by the reviewer (sample reviewer))
-

次の安全な一手 Next safe action

外部行動なしに進められる次の一手は何か・What is the next action that commits nothing externally?

INCOMPLETE — this section is written by the reviewer before release; the compiler does not invent recommendations

Limitations・制約:

- 1 of 9 sections are INCOMPLETE or GATED and say why
- no statement is verified beyond its evidence class; supplier-provided facts remain supplier-provided
- absence of evidence is not evidence of absence

This document does not claim・主張しないこと:

- no customer relationship, revenue, adoption, satisfaction or success is implied by delivery, access or acceptance; unverified statements are marked as such
- no disconnected consulting document: every proposal stays bound to its Case, gap and evidence

Methodology: Public-source discovery → evidence extraction with provenance → candidate qualification → Case formation → match evaluation against recorded constraints → human review. Every statement carries FACT / INFERENCE / HYPOTHESIS / RECOMMENDATION / UNKNOWN and its evidence ids; sections the substrate cannot support are marked INCOMPLETE, never filled.

Distribution: prepared for the named organization; internal use; no redistribution; unverified items are marked・**License:** 社内利用限定・再配布不可・未検証事項明示 / internal use, no redistribution, unverified items marked
