

SYNTHETIC / DEMO — 合成データによる見本です。実在の顧客ではありません。 This is a sample built from synthetic data; it is not a customer engagement.

Supplier / Solution Scouting Brief — SAMPLE (synthetic data)

Supplier / Solution Scouting

Report · レポート	Supplier / Solution Scouting Brief — SAMPLE (synthetic data)
Product · 製品	サプライヤー / ソリューション探索 / Supplier / Solution Scouting
Prepared for · 宛先	Sample organization (SYNTHETIC SAMPLE)
Version · 版	v1 · compiled 2026-09-01 · released 2026-09-01
Reference · 参照	MM-WD-SAMPLE0000000000 · SUPPLIER_SOLUTION_Scouting_BRIEF · mm-ddv1-deliverable-compiler/1.0.0
Review · 確認	compiled not reviewed · state released
Evidence basis · 根拠	4 passages · 4 sources · stale · latest 2026-05-02 · contradictions none
Classification · 区分	customer private tenant · SYNTHETIC
Case	サンプル市：路線減便後の高齢者の移動アクセス（合成データ） (founder review, v1)

Decision this document serves · この文書が支える意思決定
来年度にデマンド交通の実証事業を行うかどうかを決めたい（合成データ）

この成果物が扱う判断 The decision this addresses

何を決めようとしているか · What decision is being made?

- 事実 · fact 来年度にデマンド交通の実証事業を行うかどうかを決めたい（合成データ） (the requester's own words)
- 事実 · fact Geography stated by the requester: Sample City (synthetic) (customer-provided)
- 事実 · fact User group stated by the requester: 75歳以上の住民 (customer-provided)
- 事実 · fact Intended use stated by the requester: 議会向け予算説明 (customer-provided)

ニーズと Case Need and Case

どのニーズ・Case に対する探索か・What need / Case is this scouting for?

1. **事実・fact** Case SAMPLE-CASE-01 — サンプル市：路線減便後の高齢者の移動アクセス（合成データ）（state FOUNDER_REVIEW, version 1)
evidence SAMPLE-E01, SAMPLE-E02, SAMPLE-E03, SAMPLE-E04 · https://example.invalid/sample/service_change · <https://example.invalid/sample/population> · <https://example.invalid/sample/satisfaction> · [https://example.invalid/sample/budget · observed 2026-05-02](https://example.invalid/sample/budget_observed_2026-05-02)
 2. **推論・inference** 公開計画は運転手不足と減便を明記し、60歳以上の約4割が便数に不満と記載している（合成データ）。（the Case thesis is an inference over the evidence, not a fact)
evidence SAMPLE-E01, SAMPLE-E02, SAMPLE-E03, SAMPLE-E04 · https://example.invalid/sample/service_change · <https://example.invalid/sample/population> · <https://example.invalid/sample/satisfaction> · [https://example.invalid/sample/budget · observed 2026-05-02](https://example.invalid/sample/budget_observed_2026-05-02)
 3. **推論・inference** 減便後も高齢者が週2回の通院移動を維持できること — for 75歳以上の住民（合成データ）（SOURCE_CLAIM · OPEN)
evidence SAMPLE-E01, SAMPLE-E03
-

制約 Constraints

どの制約が効くか・Which constraints matter?

1. **事実・fact** 運行1日あたり上限コスト <= 48000 JPY (recorded on the Case)
 2. **事実・fact** 車椅子対応 = required (recorded on the Case)
-

候補ソリューションの種類 Candidate solution classes

どの種類が候補になるか・Which solution classes are candidates?

1. **推論・inference** SOLUTION_CLASS demand-responsive-transport — INCLUDED (confidence 0.62)
evidence SAMPLE-E01, SAMPLE-E03
2. **仮説・hypothesis** SOLUTION_CLASS volunteer-transport — REQUIRES_VALIDATION (confidence 0.35) (requires validation before it can be relied on)
evidence SAMPLE-E02
3. **推論・inference** SUPPLIER SAMPLE-SUP-A — INCLUDED (confidence 0.58)
evidence SAMPLE-E01
4. **仮説・hypothesis** SUPPLIER SAMPLE-SUP-B — REQUIRES_VALIDATION (confidence 0.41) (requires validation before it can be relied on)
evidence SAMPLE-E02

候補サプライヤー・製品 Candidate suppliers and products

どの候補が、どの根拠クラスで、なぜ挙がるか・Which candidates appear, on what evidence class, and why?

1. 推論・inference Demand-responsive transport (solution class) — INCLUDED (confidence 0.62) ・ not known: operator (evidence class: SYSTEM_EXTRACTED ・ appears because it was evaluated against this Case's recorded constraints — presence is not endorsement)
evidence SAMPLE-E01, SAMPLE-E03
2. 仮説・hypothesis Volunteer transport (solution class) — REQUIRES_VALIDATION (confidence 0.35) ・ incompatibilities: insurance ・ not known: insurance, driver pool (evidence class: SYSTEM_EXTRACTED ・ appears because it was evaluated against this Case's recorded constraints — presence is not endorsement)
evidence SAMPLE-E02
3. 推論・inference Sample Mobility Works Co. (SYNTHETIC SAMPLE) (JP) — INCLUDED (confidence 0.58) ・ not known: service network (evidence class: SUPPLIER_SELF_REPORTED ・ appears because it was evaluated against this Case's recorded constraints — presence is not endorsement)
evidence SAMPLE-E01
4. 仮説・hypothesis Sample Assistive Devices GmbH (SYNTHETIC SAMPLE) (DE) — REQUIRES_VALIDATION (confidence 0.41) ・ incompatibilities: daily_cost_cap ・ not known: JP distributor, TAIS status (evidence class: INDEPENDENTLY_VERIFIED ・ appears because it was evaluated against this Case's recorded constraints — presence is not endorsement)
evidence SAMPLE-E02

矛盾の開示 Conflict disclosure

どこで情報源が食い違うか・Where do sources conflict?

1. 事実・fact service change: "2026年4月に市内2路線が減便された（合成データ）" (1 passage ・ OFFICIAL)
evidence SAMPLE-E01 ・ https://example.invalid/sample/service_change ・ observed 2026-05-01
2. 事実・fact population: "75歳以上の住民は約1,200人（合成データ）" (1 passage ・ OFFICIAL)
evidence SAMPLE-E02 ・ <https://example.invalid/sample/population> ・ observed 2026-05-02
3. 事実・fact satisfaction: "60歳以上の約4割が便数に不満と回答（合成データ）" (1 passage ・ OFFICIAL)
evidence SAMPLE-E03 ・ <https://example.invalid/sample/satisfaction> ・ observed 2026-04-20
4. 事実・fact budget: "地域公共交通関連予算は前年度比横ばい（合成データ）" (1 passage ・ OFFICIAL)
evidence SAMPLE-E04 ・ <https://example.invalid/sample/budget> ・ observed 2026-03-30

分かっていること Unknowns

何が不完全か・What evidence is incomplete?

1. 不明・unknown Missing evidence class: FUNDING_PATHWAY (named by the qualification engine)
2. 不明・unknown Missing evidence class: OPERATOR_CAPACITY (named by the qualification engine)
3. 推奨・recommendation Bounded research task FUNDING_PATHWAY: sample city DRT subsidy programme (OPEN) (public-source only; nobody is contacted)

次に検証すべきこと Next validation

次に何を検証すべきか・What should be validated next?

1. 不明・unknown Missing evidence class: FUNDING_PATHWAY (named by the qualification engine)
 2. 不明・unknown Missing evidence class: OPERATOR_CAPACITY (named by the qualification engine)
 3. 推奨・recommendation Bounded research task FUNDING_PATHWAY: sample city DRT subsidy programme (OPEN) (public-source only; nobody is contacted)
-

次の安全な一手 Next safe action

外部行動なしに進められる次の一手は何か・What is the next action that commits nothing externally?

INCOMPLETE — this section is written by the reviewer before release; the compiler does not invent recommendations

Limitations・制約:

- 1 of 9 sections are INCOMPLETE or GATED and say why
- no statement is verified beyond its evidence class; supplier-provided facts remain supplier-provided
- absence of evidence is not evidence of absence

This document does not claim・主張しないこと:

- no customer relationship, revenue, adoption, satisfaction or success is implied by delivery, access or acceptance; unverified statements are marked as such
- no verified-supplier status, guaranteed buyer, guaranteed demand, certification, government adoption or guaranteed market entry
- no recommendation exceeds its evidence; a candidate's presence is not an endorsement

Methodology: Public-source discovery → evidence extraction with provenance → candidate qualification → Case formation → match evaluation against recorded constraints → human review. Every statement carries FACT / INFERENCE / HYPOTHESIS / RECOMMENDATION / UNKNOWN and its evidence ids; sections the substrate cannot support are marked INCOMPLETE, never filled.

Distribution: prepared for the named organization; internal use; no redistribution; unverified items are marked・**License:** 社内利用限定・再配布不可・未検証事項明示 / internal use, no redistribution, unverified items marked
